

LAFOLLETTE IS RE-ELECTED TO UNITED STATES SENATE

ASSEMBLY AND SENATE VOTE SEPARATELY ON THE QUESTION.

WHITEHEAD FOR WINKLER

Is Only Republican in Legislature Who Falls to Cast Ballot for Present Representative.

Madison, Wis., Jan. 24.—By a party vote to a man, the Wisconsin assembly, balloting at noon today, selected Robert M. La Follette to succeed himself as United States senator. The vote was as follows: La Follette, republican, 68; Wallace, democrat, 27; Kleist, social democrat, 12.

Owing to the absence of Senator Sandborn, in the senate this morning, the upper house postponed its balloting until later in the day. But the re-convening of that body this afternoon marked the re-election of La Follette by that body.

The vote resulted as follows: La Follette, 24; Wallace, 2; Kleist, 2; and

NO SELECTIONS YET AS TO SENATORSHIP

New York and Iowa Legislature Unable To Reach Decision.—In New Jersey.

Albany, N. Y., Jan. 24.—The sixth joint ballot today for U. S. Senator resulted in no choice. William F. Sheehan still holding the lead.

Byers Withdraws.

Des Moines, Ia., Jan. 24.—Former Attorney General Byers withdrew from the senatorial race today which boasted Kenyon and Funk, but the deadlock is as strong as ever.

Old Guard Defeated.

Trenton, N. J., Jan. 24.—The "Old Guard" of the New Jersey Democracy went down to utter rout today. Gov. Woodrow Wilson, with his lieutenants, forced the prospective election of James E. Martin as U. S. Senator to succeed John Kean. Martin lacked only one vote of election in the legislative balloting today. Smith, the Newark banker, then withdrew, leaving Martin's election assured tomorrow.

TAILORS IN RIOT RESULT OF STRIKE

Shops Were Wrecked and Six Arrests Made in Chicago Today in Riot of Garment Workers.

Chicago, Jan. 24.—Two tailor shops were wrecked, and more than a hundred non-union tailors driven into the street, and six arrests made in a riot incident to the garment workers strike here today. Many tailors were bleeding from cuts and scratches before the disturbance was quelled.

KILLED BY BURGLAR WHO BURNED HOUSE

Westboro Men Victim Of An Assault By Thieves Who Escaped.

Ashland, Wis., Jan. 24.—Victor Gustafson is dead, the victim of an assault by burglars, who afterward fired his house.

LIFE IMPRISONMENT IS SENTENCE GIVEN

Murderers Of Stanley Ketchel Found Guilty By Jury Today.

Marshallfield, Mo., Jan. 24.—Walter Dwyer and Goldie Smith were sentenced to life imprisonment today for the murder of Stanley Ketchel, middleweight champion pugilist. The jury deliberated through last night before bringing in a verdict of guilty of murder.

ANOTHER SERIOUS CASE FROM BELOIT

Thomas Burns Brought to County Jail to Await Trial in Beloit for Serious Charge.

Thomas Burns, charged with abuse of a nine year old child in that city, was brought to this city this afternoon by Deputy Sheriff Schellert to be held here in the county jail pending trial on January 27. He was taken before Judge Roun at Beloit this morning and his bail fixed at \$1,000. Burns is a single man and originally hailed from Mineral Point, having been employed in Beloit for the past six years as a coal tanner. He was given a preliminary examination before District Attorney Dunwiddie before going to Beloit for trial. This is the second case of this nature from the Line City within the last few weeks. Burns is not exceptionally bright and without a doubt will receive a stiff sentence.

BELOIT HORSEMEN PLAN FOR RACES

Several Local Horses Will Take Part in the Novel Affair February 1.

Janesville horse owners are much interested in the coming races to be held in Beloit on February 1st, for which substantial purses have been hung up. The affairs will be among the first of its kind ever to be held in Beloit. Some of the best horses of the surrounding cities are entered for the event. Chicago, Lake Geneva, Harvard, Edgerton, Madison, Janesville, Rockford and Milwaukee horsemen will enter.

The course will start from the electric bridge and run south toward the upper bridge, above the dam. The course is ideal for the sport and with good ice and favorable weather conditions, some hot racing is sure to develop.

They Lloyd has received a letter from C. T. Smith of Beloit, announcing the races. There will be one free-for-all, trot or pace, for a purse of \$75, divided as follows: First money, \$30; second money, \$25. The second race will be a 2:25 class trot or pace for a \$50 purse—\$25 for first money and \$15 for second money. The entry fee is five dollars for the free-for-all and two dollars and a half for the 2:25 class.

Cash Cut Over Eye: Lynn Whaley had a bad gash, which required several stitches, cut over one of his eyes on Monday while splitting kindling. A piece of the wood flew when he hit it with the axe.

ROBERT M. LA FOLLETTE.

General P. C. Winkler of Milwaukee, 1. The only incident of the balloting was the stand taken by Senator John M. Whitehead of Janesville who cast his vote for Gen. Winkler.

In the assembly a bill was introduced providing for the initiative and referendum vote. A joint resolution was also introduced in the senate for an amendment to the constitution allowing women to the constitution.

In answering to his name at the roll call Senator Whitehead stated that he was voting for a United States senator for the eighth time in his political career and in former days the party had held a caucus and supported the nominee of that caucus. This being done away with he felt free to vote as he chose. He would have liked to be with the majority, but he could not so readily himself. He was not willing to be held responsible for Senator La Follette's political beliefs and so voted for that former soldier, prominent German-American and eminent republican, General Frederick C. Winkler of Milwaukee.

Two joint resolutions introduced by Senator Lindley of Superior in the senate, were adopted by that body. One provided for the extending of an invitation to Senator Bourne of Oregon, president of the newly formed National Progressive Republican League at Washington, to speak before the state body.

The other provides for extending to the Oregon legislature from the Wisconsin body its congratulations.

The senate also referred the Senator Stephenson investigating report together with the limiting resolution asking for an investigation by the United States senate, to the senate committee on judiciary. This will delay action of the Stephenson case until some time during the coming week.

Governor McGovern today sent to the senate for confirmation the appointments of Halford Erickson of Superior to succeed himself as a member of the state railway commission. Erickson has been a member of the commission for the past six years. It is affirmed, his new appointment will take effect February 1, at an annual salary of \$5,000.

The senate and assembly will meet and ballot jointly tomorrow noon. Senator La Follette will make a short speech of acceptance at that time. The senator is now at the home of his brother-in-law, Judge Stebecker.

PETITION FOR VOTE PROBE IN MISSOURI

Eight Hundred Signers Ask Investigation of Alleged Corruption in Wyandotte County.

Kansas City, Jan. 24.—Ten petitions signed by over eight hundred persons were delivered to Judge Fisher today demanding that a grand jury investigate the vote traffic conditions in Wyandotte county. It is indicated that Missouri can show just as rampant corrupt practices as can Illinois and Ohio.

STOCKS RALLY WHEN THE MARKET OPENS

[BY UNITED PRESS.]

New York, Jan. 24.—The rallying tendency that developed shortly before the close yesterday was in evidence again at the start of the stock market today when small gains were established in nearly all the active issues.

ONTARIO LEGISLATURE BEGINS ITS SESSIONS

Matters of Important Business Will Come Before Gathering but Will Be Quickly Disposed of.

Toronto, Ont., Jan. 24.—The third session of the twelfth Legislature of Ontario met today and was opened with the customary ceremonies. Though the session is not likely to be prolonged for more than six or eight weeks the indications are that many matters of importance will be brought up for consideration and action. Among the most important legislation to be dealt with is the proposed revision of the liquor license act. According to report the new measure will provide for the abolition of all license boards and the placing of control and operation of all licenses in the hands of a central commission, which will sit in Toronto and have jurisdiction of all licenses in the Province.

ARISTOCRATS FLEE TO ESCAPE CENSURE

Austria Practically Deserted by "Best People" because of Searching Nature of Questions.

Vienna, Jan. 24.—Austria is practically deserted by all the "best people" just now. They have used the country to escape the census. When the census-taker's work has been completed, the "best people" will return. Not before. This means a several weeks' exile. In the meantime, merchants who cater to the "lucky" trade are suffering severely.

The trouble is that the current year's census-takers are so searching in the questions they ask that no one who can help it will submit to the inquisition. Matters of age, income and occupation, the country is, of course used to. But this year the questions do not stop there. Every imaginable interrogatory, direct or indirect, is put.

Do you keep any domestic animals? So what is their function in the household? Do you suffer from any disease? If so, what is it, how was it contracted, and how long have you had it? What are the sanitary arrangements in your house? How many members are there in your family? And who are they?

These are just a few. Vienna, in particular, is a pretty "wild" town and a good many of the queries run strongly into personalities which few people like to disclose.

Nor is even this the worst. In order to prevent inexactitudes, the papers must be handed in unopened envelopes, after they have been filled in, to the house porters, or concierges, to the latter may check them and notify the police of any misstatements which they discover. Everybody in an Austrian city of any size lives in a house with a concierge and it is unpleasant to have the janitor know all of the things which the census department has set itself to find out. The census department says it wants the information for "statistical purposes." The janitors may want it for something else.

SKATERS OF NAT'L RENOWN COMPETE

Outdoor Skating Championship Races, Lasting Three Days, Opened on Lake Saranac, N. Y.

Saranac Lake, N. Y., Jan. 24.—Many skaters of international reputation gathered here today to compete in the national outdoor skating championships, which are to be contested for three days on Saranac Lake, under the auspices of the International Skating Union. Canadians are prominent among the entrants. They include Fred Robson of Toronto, the Canadian champion, and R. L. Wheeler, A. Mason, and Lot Roe, also of Toronto, and several fast men from Montreal. The American entrant include the present title holders of the West and the Northwest and also of Pennsylvania, Ohio, New York and Wisconsin.

FAMOUS EDUCATOR BORN CENTURY AGO

Today the Centenary of Henry Barnard, First U. S. Educational Commissioner.

Washington, D. C., Jan. 24.—In these days of amazing development in all branches of educational work it is not without interest to note the fact that today marks the one hundredth anniversary of the birth of Henry Barnard, who was first United States Commissioner of Education and one of the pioneers in the development of the common school system in this country.

Barnard was born in Hartford and graduated from Yale in the class of 1830. Subsequently he studied law and was admitted to the bar, but soon abandoned the legal profession to devote his attention to educational work. He was elected to the Connecticut legislature in 1857 and as a member of that body originated and secured the passage of an act to provide for the better supervision of common schools and the establishment of normal academies and high schools. He was secretary of the board of school commissioners of Connecticut for several years and subsequently filled a similar position in Rhode Island.

After serving for two years as president of the State University of Wisconsin and a similar period as head of St. John's College, Mr. Barnard was appointed in 1867 to be the first United States Commissioner of Education. He remained in that office three years and laid the foundation for the valuable work which has been successfully carried on by his successors. Mr. Barnard continued to take an active interest in educational affairs until his death, which occurred at Hartford, in his ninetieth year. The latter years of his life he devoted largely to his work as editor of the "American Journal of Education," the publication of which he began as far back as 1855.

ADMIRAL'S WORDS PROVED TOO TRUE

Admiral Germinet, Who Pointed Out Weaknesses of Navy, Restored to Full Power Again.

Paris, Jan. 24.—Admiral Germinet, whose command was taken from him a little over a year ago because he pointed out the weakness of France's navy, saying none of the ships were restored to all his lost and more. He has just been given the plaque of Grand Officer of the Legion of Honor and it is everywhere fully recognized here that for telling the simple truth he was rather badly treated. A legislative investigation committee, it will be remembered, found conditions worse than the admiral stated.

MILWAUKEE FACTORY DESTROYED BY FIRE

Plant of the Wilbur Stock Food Company Completely Destroyed in Flames Today.

Milwaukee, Jan. 24.—Fire early today completely destroyed the plant of the Wilbur Stock Food company, together with farm houses occupied by employees of the company. For a time the entire block was threatened. Daniel Marshall, with his wife, narrowly escaped from the third floor of the building in which they had living quarters. The estimated loss is \$50,000.

MILWAUKEE PIONEER RESIDENT IS DEAD

Ephraim Mariner, Prominent for Over Fifty Years in Financial Circles, Has Passed Away.

Milwaukee, Jan. 24.—Ephraim Mariner, aged 83, a pioneer resident of Milwaukee and one of the largest holders of real estate in this city, died early today at his home. He came to Milwaukee in 1850 from New York and for more than half a century was prominent in local real estate and financial circles.

AWAIT PRESENTATION OF NEW OPERA BY STRAUSS

"Der Rosenkavalier" Said to Excel in Brilliance All Previous Productions of Composer.

Dresden, Jan. 24.—Curiosity is keen over Richard Strauss's new opera, "Der Rosenkavalier," which is to be given his initial performance tomorrow night at the Royal Dresden Opera. Though the details have been guarded carefully from the public it is learned that the orchestra score, while not so intricate or heavy as that of "Elektra" or "Salome," is exceedingly brilliant. Critics who were privileged to attend the rehearsals pronounce the work a marvel of melody and simplicity.

PHILLIPS' CHANCES REPORTED AS FAIR BY THE PHYSICIANS

Noted Author Shot By Insane Man in New York Yesterday May Recover From Wounds.

New York, N. Y., Jan. 24.—"His chances are fair" was this morning's report from the bedside of David Graham Phillips in Bellevue Hospital, where the author was taken yesterday afternoon after he had been shot down in the street by Pittsburgh Coyne Goldsborough, an eccentric musician with fabled grievance and then followed his murderous assault by his suicide on the spot.

The cause for the shooting is still a mystery. Senator Beveridge of Indiana, an intimate friend of Phillips, rushed from Washington and today visited the bedside of the wounded man.

HEARINGS STARTED BEFORE COMMITTEES

Legislature Gets Down to Good, Hard Work Immediately—Many Important Issues Are at Stake.

Madison, Wis., Jan. 24.—Hearings were begun this afternoon before a joint meeting of both houses of the legislature on the highway commission bill drawn by a special committee of the 1909 legislature and introduced at the beginning of the session by Senator Burke. This bill forms the basis for the public hearings on the subject of state aid for good roads, but it is improbable that the present measure will be the one to be adopted by the legislature. Senator John S. Donald of St. Francis and E. E. Browne of Waupun have different ideas as to how the state should aid in the building of highways, and after the committee bill has been fully explained important amendments will be offered. The principal sponsor for the committee bill is Assemblyman John H. Jones of Leen, who spent most the afternoon explaining its provisions.

The committee bill appropriates \$300,000 a year to be devoted to state aid for road building by townships, and provides for the appointment of three commissioners to administer its provisions. One of these commissioners shall be a civil engineer and receive \$2,000 a year, while the other two are not required to possess special qualifications and are to be paid \$2,400 a year each. Not more than \$25,000 a year is to be used for the purposes of administration. It is required in the bill that towns shall institute road improvements, and that if no objection is offered by the commission, state aid shall be granted after the improvement has been finished and paid for, to the extent of 20 to 34 per cent of the total cost. Thus the aid would be in the nature of a reward, the bill being somewhat elastic as to the amounts.

The provision for so large an amount for administration is made in order that the commissioners may conduct exhaustive investigations of road building methods, to determine which are the best for various localities. Clerical clerks are allowed a sufficient clerical force and all necessary materials and supplies. One provision of the measure exempts the employees of the commission from the provisions of the civil service law, but this is not likely to receive support.

The present legislature has shown a disposition to shy at the appointment of any more commissions, and there is reason to believe that this feature will receive the larger proportion of attention, especially from the members from the rural districts.

MRS. SCHENK BREAKS DOWN IN THE COURT ROOM THIS MORNING

Woman Charged With Poisoning Her Husband Suffers From Extreme Nerve Trouble.

Wheeling, West Va., Jan. 24.—Mrs. Laura Schenk, broke down and sobbed when attorney Frank O'Brien, her counsel, pleaded with the jury for her acquittal, she indicated she was laboring under extreme nervousness. O'Brien severely condemned the testimony of "Mrs. Klein," the detective nurse.

Assistant prosecutor Maury finished his closing argument today. He made a strong plea for conviction based on "unimpeachable circumstantial" evidence.

FREAK BILLS FIND PLACE IN SESSIONS

One Proposed Measure Would Permit Women To Wear "Trousers" If They Wanted To.

Madison, Wis., Jan. 24.—Assemblyman Carl Hansen of Manitowish, who is a bachelor and a member of the committee on the welfare of women and children, contemplates the introduction of a freak bill, "Permitting the female sex to adopt the method now in vogue in Turkish harems with reference to the wearing of trousers," as he put it today. If assemblyman Hansen doesn't change his mind his fame will eclipse that of Roosevelt, a member of the last assembly, who was the author of a bill to prohibit the wearing of tight by women in public.

Two bills affecting elections were introduced by assemblyman Hallard this morning. One changes the law on the changing and closing of the polls in all cities, making the hours from 6 a. m. to 8 p. m. The other gives all employed persons the right to have two hours in which to vote on election day, the penalty for any employer violating the proposed act being fixed at \$5 to \$100 fine.

CLEVER POLITICAL MOVE IS PLANNED

Ohio State Progressive Senator Will Attempt to Overthrow Power of Conservative Element.

Columbus, Ohio, Jan. 24.—State Senator Todd of Youngstown today wired Senator Bourne, president of the newly formed Progressive Republican league at Washington, offering his services. This is taken to mean that Todd will attempt the organization of a similar move in the Ohio legislature in an attempt to overthrow the conservative element now in control.

GRAND JURY SEEKS SEVERAL WITNESSES

Investigation of Affairs at Danville Continues to Progress Quietly.

Danville, Ill., Jan. 24.—While there is much gossip and speculation concerning the vote buying investigation, the only development so far today was the issuing of subpoenas for witnesses and a request of the grand jury foreman for a court order to compel the sheriff to explain why certain subpoenas were not served.

CITY SEEKS THE COUNTY SCHOOL

SCHOOL BOARD WILL MAKE OFFER TO COUNTY SUPERVISORS.

MAY LEVY SPECIAL TAX

Upper Floor of Jefferson School Will Be Offered and If Accepted, \$1,000 Will Be Spent For Equipment.

Janesville made its first formal bid for the location of the proposed county training school for teachers, at their session last evening when Alderman Sheridan introduced a resolution calling for the appropriation of one thousand dollars to rent and equip the upper floor of the Jefferson school, which is not now used by the city schools, for quarters for the institution.

That the council realize the importance of securing the school for Janesville was evidenced by the resolution, and it is expected that it will have considerable weight in deciding the county board as to the location of the school when they meet in April. Alderman Sheridan's motion was referred to the building committee for consideration and it is expected will be reported back with a favorable recommendation at the next session of the city fathers.

All of the aldermen were present at the session last evening and after the recess, which became a sort of "after-chamber" gathering and lasted about an hour, the business of the meeting was quickly transacted. Highway matters occupied a large share of the attention of the city fathers, chief among which were the street improvements in the "Third Ward." For this purpose special bond issues of \$136,140 and \$25,221 at six per cent interest, the last to be paid March 1, 1915, for street improvement work on Jackson and East streets respectively, were authorized. Notice of election to pay the special assessments for street improvement work filed by property owners on Jackson, East and Wisconsin streets were accepted by the council.

Preliminary steps toward removing the "lake" which accumulates in front of the West Side fire station were taken. The report of the street assessment committee concerning the storm sewer which it is proposed to build to carry off the excess water on North River street and a resolution directing the city engineer to complete the plans for the sewer were offered by Alderman Buchholz. The street assessment committee was authorized to secure the signatures of the Blodgett Milling Company, Ogden L. Pethers, and M. G. Jeffers to the title to land through which the sewer must be laid, and the committee directed to make arrangements for the construction of the sewer. The money for the purchase of the land and other necessary expenses will probably be appropriated at the next council meeting.

The payment of \$113,850 from the Third Ward fund to Gund, Graham & Co. of Freeport, Ill., for street improvement work on Lincoln, South Second and South Third streets was ordered and the city clerk directed to draw orders in favor of G. D. Cannon, totaling \$400 for cement curb and gutter and east front gutter work in the city. Of this amount, \$119.52 is payable from the general fund, \$17.77 from the First Ward fund, and \$252.73 from the Third Ward fund.

An error of seven dollars was made in the assessment of property owned by the John M. Smith estate, and this amount the city treasurer was ordered to refund from the sewer district fund. The transfer of certain sums from various funds to the general fund was authorized. The purpose of the transfer of the money and the amounts to be drawn from each ward fund are given below.

Crushed stone: First Ward, \$31.35; Second, \$ 95; Third, \$64.80; Fifth, \$27.78.

Paving brick: First Ward, \$15.82; Second, \$56.13; Third, \$15.36; Fourth, \$119.80; Fifth, \$24.07.

Crossing plates: First Ward, \$139.22; Second, \$191.04; Third, \$104.28; Fifth, \$85.00.

Outer covers: First Ward, \$163.92; Second, \$298.08; Third, \$298.98; Fifth, \$57.54.

Mayor Carle suggested that it would be wise for the council to consider the purchase of paving brick and cement early, in order that the difficulties experienced last year in getting material might not be repeated this year, and on motion of Alderman Evans the street assessment committee was authorized to secure prices for paving brick.

The transfer of saloon licenses from Mr. Bonh Brewing Company, 68 South River street, to Harry McAfee, and of Al. Teubert to W. Schneider for the year ending at 23 North Academy street was allowed and the bonds of McAfee and Schneider accepted.

Current bills were allowed, the salary list for the month of January was ordered paid, and the city clerk authorized to purchase the necessary supplies for the coming elections. The appointment of John Benson as special policeman without pay until April 11 was also confirmed. John Norton's petition to be allowed to place a sign in front of his electric theatre at 303 West Milwaukee street from six until ten o'clock every evening was laid on the table.

The council completed its work and adjourned shortly after nine o'clock.

HAS FOOT TWISTED

BY BLOCK OF ICE

Workman at Upper Ice House Met With Painful Accident—Ice Harvest Nearly Completed.

While assisting in handling blocks of ice in the upper storage building of the City Ice company, about six o'clock last evening, Patrick H. Arner of 15 North Fifth street, had his foot caught between two blocks and suffered a severe sprain. Some of the heavy blocks got loose and his foot was jammed between the blocks, twisting it so badly that he had to be taken home where he will be forced to remain for some time. Dr. Judd is in charge of the case.

The filling of the two lower houses was completed last week, and work

was commenced at the upper plant yesterday morning. About half the number of men are employed at this place and it is thought that it will take in the neighborhood of a week to get the building filled. The company will put about 3,000 tons of ice in the upper house.

BOXING EXHIBITIONS AT WEST SIDE RINK

Three Preliminary Contests and Good Windup Before Janesville Athletic Club At Rink Building.

In the water-tight windup of the boxing contest of the Janesville Athletic club at the West Side Rink, last night, Gus Christie of Milwaukee, had a shade the best of Spike Kelly of Chicago, in a rather slow moving eight round boxing contest. The Chicago lad started with the aggressive and kept up a rushing and butting fight for the first four rounds. During this portion of the contest he had a slight advantage, giving the boy from Milwaukee quite a severe punishment. The latter stood up well under the onslaught, however, and proved his superiority by keeping up a good, heavy, open game. Kelly was guilty of a certain amount of "head" work throughout the fight and it was the way in which Christie handled this that gave him the shade of the win. In the last part of the exhibition Kelly came in for his share of the punishment but both men finished fresh and in good condition.

There were three fair preliminary exhibitions. Kid Williams and Young St. Clair both of Janesville, started the evening's entertainment boxing three rounds of what was to have been a five round contest at which time St. Clair quit, his wind having given out. Kid De Mann of Quincy, Ill., a promising boxer, bettered Young Riley of Milwaukee, in two rounds. Riley's seconds throwing up the sponge at this stage of the game to prevent severe punishment of their man.

The semi-wind up was scheduled to go eight rounds the contestants being Young Richards, of Madison, colored, and Jack Delaney, a local boxer. It lasted four rounds during which Delaney had the best of the Madison "amok", on points but at the going at the beginning of the fifth Delaney refused to continue. The latter had stepped into the game at the last moment to take the place of the regular man who could not appear and as a result was not in good condition. Tom Shuler of Beloit, acted as referee for all the exhibitions of the evening.

OBITUARY.

Mrs. Meribah Moses.
The funeral of Mrs. Meribah Moses will be held from her late residence, 150 Cherry street, Wednesday afternoon at 2:30 o'clock. Rev. Mr. Hazen of the Baptist church officiating. All friends of the family are invited. Interment will take place in the family vault at Oak Hill cemetery. The pallbearers will be A. G. Anderson, Mayhew London, T. J. Lloyd, and Charles M. Riker.

Mrs. Julia Cary.
Mrs. Julia Cary passed away at nine o'clock this morning at the home of her son, Roy L. Cary, 740 Yuba street. The deceased had been confined to her bed as an invalid for years and would have been seventy-seven years old tomorrow. For the last two years she had made her home with her son in this city, but had previously been a resident of Johnston. She was preceded in death by her husband, Richard Cary, who died five years ago in Johnston. Besides her son Roy, of this city, who leaves another son, Emory Cary of Milton. Funeral services will be held at the Free Will Baptist church at Johnston, Thursday morning at eleven o'clock.

Thomas Smith.
Death came to Thomas Smith shortly after noon today at the home of his sister, Miss Katherine Smith, on High street, after an illness of only a few days. The deceased was born August 27, 1849, in Prividence, R. I., and in 1855 he came west with his parents who settled on a farm near Watertown. He resided there until some seventeen years ago when he removed to this city where he has since resided. Up to the time of his death Mr. Smith had been employed as night watchman by the Janesville Clothing Company and was esteemed as a faithful and reliable employee. He was of an honest, upright character and was a member of St. Mary's church. He leaves to mourn his loss two brothers and two sisters. Mrs. Patrick Fleming, Miss Katherine Smith, and James Smith, all of this city, and Edward F. Smith of Watertown. Funeral announcement will be made later.

Jeannette Elizabeth Jensen.
Death came to sadden the home of Mr. and Mrs. J. K. Jensen when their five year old daughter Jeannette Elizabeth was suddenly called by death, at the home, 715 Garfield Avenue, at nine o'clock this morning. She was an only child and a bright, happy, little girl who was the joy of the home and in whom all the hopes of a fond father and mother were centered. The funeral which will be private, will be held Wednesday afternoon at half past two.

Mrs. Julia Pomranke.
Funeral services for the late Mrs. Julia Pomranke were held at nine o'clock this morning from St. Mary's church, Father Goshol officiating. The pall bearers were Philip Rousen, Thomas Selgel, Peter Neuter, and A. J. Hannan. Interment was in Mt. Olivet cemetery.

Mrs. Will Hinckley.
Remains of Mrs. Will Hinckley arrived here from Harvard, shortly before twelve o'clock today and were taken directly to the Oak Hill chapel, where services were conducted by Rev. T. D. Williams. Body was laid at rest in the chapel vault.

Mrs. Elizabeth Davies Spence.
Funeral services for the late Mrs. Elizabeth Davies Spence will be held Thursday afternoon at half past two o'clock. Services will be private.

Mrs. Eliza Monroe.
Funeral services for the late Mrs. Eliza Monroe were held from the home, 65 South Franklin street at half

past two this afternoon. Rev. T. D. Williams of the Methodist church officiating. The pall bearers were all nephews of the deceased: Charles J. Edward L. John, William, Fred, and Lawrence Vinay. The remains were laid at rest in the vault in Oak Hill chapel.

PLEASING COMEDY AT MYERS THEATRE

Mirth Provoking Farce, "Baby Mine," Was Enjoyed By Fair Sized Audience. Last Evening.

Margaret Mayo's farce, "Baby Mine," was the attraction which appeared here for the second time this season at the Myers Theatre last evening. It is a clever mirth provoking comedy, and its humorous scenes and situation kept the fair sized audience in a continual mood for laughter. The story of the play centers around the family troubles of the Hardy Jenkens which Mr. Hardy entertains for his wife. In an effort to affect a reconciliation for a separation, Mrs. Hardy and her friend, Mrs. Jenkens, conceive of the happy thought of adopting a baby and then announcing to Mr. Hardy that he is a father. The scheme has the desired effect of bringing back the jealous husband, but he comes before Jimmy Jenkens and makes the important infant. Later developments bring three babies on the scene with resulting complications which finally necessitate an explanation.

It is a very clever piece and its mirth provoking scenes brought out the humorous situation in every detail. Edna Mitchell as Jimmy Jenkens, took his part as the much abused baby singular to perfection as did also George Probert, as Alfred Hardy, the father of first one son, then twins, and finally triplets, and later of four, all due to the bringing of Jimmy. Natalie Perry as Aggie, Jimmy's wife, who was continually having ideas for Jimmy to carry out, and Consuela Bailey as Zoe, Alfred's wife, who would do anything to make him love her again, also deserve special mention for clever acting.

CURE MADE BY SUGGESTION

Girl in Cataleptic State Now Talks and Solentists Will Work on "Muscle Memory."

Paris.—The local papers publish the story of a servant named Josephine who has fallen into a cataleptic slumber and cannot be awakened. She is at present in the hospital at Alconon, where she has been since January 22 of this year. Josephine, who is thirty-two years of age, for the last 12 years has been subject to nervous fits, which occurred every few months. She was prostrated completely after these attacks and was incapable of working for several days. Her spirits were affected and she became convinced that she would never work again. As her character became more somber her nervousness increased.

On June 11 last, after a day in which she exhibited unusual mental agitation, she fell into a sleep from which she has not yet recovered. The anaesthesia is generalized. Hearing, sight and taste are suspended. Only the sense of smell remains in a certain measure. The eyelids frequently tremble convulsively, while at intervals the patient gives utterance to inarticulate groans.

Dr. Paul Parez, professor at the school of psychology, is interested extremely in this remarkable case and is using his best efforts to convert the pathological sleep into an hypnotic sleep in which state the patient would be more accessible to suggestions of a therapeutic efficacy. His labors in this direction have been crowned with success.

When she fell into the catalepsy Josephine was completely speechless. Now she articulates in a loud voice—the effect of suggestion. Responding to the same influences she sits up without assistance in bed. Under the guidance of the doctor her faculties return little by little. But her muscles have lost their most elementary notions of movement. Her medical attendant now is working upon the "muscle memory." He believes that presently the dreamer will be called back by a scientific miracle from the limbo where her mind wanders, and that she will be restored to active life.

Her Recommendation.
Richard Carle, the actor, lately engaged as cook a Swedish girl named who proved unsatisfactory. On departure she asked for a written testimonial, and Mr. Carle presented her with the following: "To whom it may concern: I have lately had in my employ Hulda Swanson, who was engaged to cook for a family of three and do such things as would be possible when not cooking. Under this head might come a little dusting and dishwashing and answering the doorbell. Taking these things into account, I wish to say that Hulda is absolutely the tallest cook I ever saw."

DELIVERED SERIES OF ADDRESSES TO STUDENTS

Miss Caroline F. Zeiminger Gave Three Discourses On Great German Epic Poem, Nibelungen Lied.

Miss Caroline F. Zeiminger gave today the last of a series of three addresses to the students of the high school at their morning exercises, on the subject of the great German epic poem, "The Nibelungen Lied".

The first address was given last Friday morning and was in the nature of an introduction, with an explanation as to the nature of epic poems and what their significance is to the various people. In the next address on Monday morning, the story of the poem was given and today's address treated of a comparison with the great epic poems of the Greeks. Important differences were given and some points in which the German poem was better than the Greek were emphasized. The entire series proved very interesting and instructive.

A Blazing Fire.

On a cold, frosty night everyone likes to see a blazing fire, but this generally means heavy coal bills. A good plan is to place a quantity of chalk at the back of each grate, in equal proportion to the coals. This throws out a terrific heat and lasts quite a long time. It always pays in the end to buy good coal, for not only does it make a clearer fire, but it leaves fewer ashes. A handful of common salt thrown into the fire occasionally makes a cheerful blaze and lessens the consumption of the coal.—Boston Herald.

COMMON SENSE CURE FOR RHEUMATISM.

Rheumatism has for ages been a puzzle to the doctors. Some claim it to be an infection, a germ disease. Others claim that the cause is uric acid, a kidney disease. It is said that uric acid is carried by the blood into the small apertures of the joints and skin where it crystallizes and it is the small, sharp crystals that cause intense pain with every motion of the body by cutting into the flesh and nerves. Whatever the cause, the best relief known is an Alkaline Elixir of the Sulphates. The chemical nature of the Sulphates is to form soluble compounds with the urates. In this way these crystals are dissolved, taken up by the blood and taken out of the body by the kidneys.

UNEARH BIG TOBACCO FRAUD

CLAIMED NATION CHEATED OUT OF \$5,000,000 ANNUALLY.

"Wrapper" Material Is Alleged to Have Been Brought In on "Filler" Rates by Importers.

New York, Jan. 24.—A countrywide investigation which the treasury department has started, it is declared here, has disclosed discrepancies in the wrapper and filler statistics of tobacco imports from Cuba which have deprived the government of between \$3,000,000 and \$5,000,000 annually for the last five years.

According to the story, tobacco trade figures show that cigar makers who turn out pure Havana cigars must have six per cent. of their stock in wrapper, while the figures of the treasury department show a fraction under one-fifth of one per cent. of the Cuban imports classified as and paying duty as "wrapper."

Advance reports on this investigation show, it is said, that the Cuban importations have been admitted under a classification which in the fiscal year ending June 30, 1909, deprived the custom house of between \$3,000,000 and \$5,000,000 and treasury department officials are quoted as saying that approximately the same sum had been lost to the government annually for at least five years.

From the investigation thus far, however, it was the belief that this loss was more in matter of long established trade custom than fraud.

Collector Loeb is quoted as saying: "We know the tobacco trade has been getting the best of us, but we do not know to what extent, and the investigation has not proceeded far enough to determine that."

The assertion made is that it is an open secret that thousands of pounds of Havana leaf, suitable for wrapper, is brought into the country under the classification of "filler" at \$1.20 less duty per pound.

TO ISOLATE PLAGUE TOWN

Corpses Are Piled High in Streets and Yards of Suburb of Harbin, Manchuria.

Harbin, Manchuria, Jan. 24.—Fudzian, a suburb of Harbin and the particular plague spot of Manchuria, is to be isolated as the first systematic step toward exterminating the plague that has grown more threatening every day.

This was decided at a conference participated in by the local, the head of the local Chinese government, and English and Chinese physicians. The movement is due to pressure brought to bear by the Russian government, which realizes the seriousness of the situation.

A Russian physician who has just completed an inspection of Fudzian discovered three plague sources in the neighborhood of which 7,000 persons reside. Bodies are piled high in the streets and in the yards adjoining the homes. Last week there were 1,500 deaths in Fudzian.

The pneumonic type of the plague predominates.

Growth of English Engines.
Although British locomotives, limited as they are by the narrow clearances of tunnels, bridges, etc., have never reached the size of locomotives in America, there has been a steady growth in dimensions, and some of the latest engines are extremely powerful. Thus ten of the Atlantic type, built for the East Coast Scottish express line, have a total heating surface of 3,455 square feet, and a grate area of 27 square feet. The barrel of the boiler is 5 feet 6 inches in diameter, and 16 feet 10½ inches in length. The tank has a capacity of 4,125 gallons of water, and five tons of coal. The total weight of the engine alone is nearly 90 tons.—Scientific American.

POULTRY

SECURING EGGS IN AUTUMN

Hens Penned in Large Dry Shed and Fed on Small Grain and Seeds Do Well.

All during the spring, and the early part of the summer, we fed our hens on a mixture of pure wheat bran and corn hearts meal—about equal parts, with grain only three or four times a week—and they thrived on it, and laid well. But, as the autumn season came on they seemed to get tired of it, and to scratch the mixture from the bins as much as possible, and to seem to be going into early moult—stopping laying almost entirely, says a writer in the Desert Farmer. Especially has this been true of our Leghorns; and so we put our thinking caps on to devise a plan to hold them up to the laying scratch to some extent at least during the early autumn. And so, with this object in view, and a large dry shed that was slated up all around available, we corralled a dozen or two of our Leghorn hens, and put them in the shed enclosure, with roosting provided therein. Then

Standard Brown Leghorn Hen.

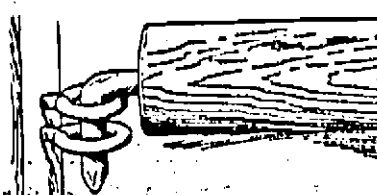

we littered the ground well with straw and other trash, and began feeding them with small grain and seeds in there for them to work out, and a morning and evening we gave them a good feed of fresh white clover gathered while the dew is on it.

This system we find is rallying them greatly.

DOULTRY NOTES

A broken egg left in a nest is a disease breeder.

Get all the leaves you can for the scratching pens.

Six pounds at six months isn't big weight for Plymouth Rocks.

February is none too soon to start your campaign for egg orders.

We need new breeds when they are better than the breeds we have.

It is a mistake to suppose that eggs cannot be entered by bacteria.

There is undoubtedly great room for improvement in the egg industry.

The fact is that one breed will do about as well as another if given the right care.

Young birds, pullets, are usually most reliable for egg production in the late fall and early winter.

How hens do like sweet apples! Good for them, too. Share them between the hens and the pigs.

Poultry, like everything else, has no best side. It all depends upon the man who is to run the business.

Too many farmers and poultry raisers are prone to feed whatever they raise the most of, particularly corn.

With the open front poultry house, let the house be reasonably deep from front to back with the roosts to the rear.

Soft-shelled eggs usually indicate that your hens are over-fat. Lessen the grain feed, and feed more green food.

Of the various forms in which poultry is put on the market, the greatest gains are to be obtained from the fattening of roasters.

If you are successful in getting the birds to lay during the autumn you will stand a good chance of having them keep up the performance.

AT LEFT, POSTMASTER GENERAL HITCHCOCK; AT RIGHT, PILS FONSECA OF BRAZIL.

New parcels post between the United States and Brazil to promote closer business relations.

Washington, D. C.—The consummation of parcels post relations between the United States and Brazil may be expected to promote the business by means of catalogues. These houses have been active in pushing the campaign for the establishment of a parcels post system in the United States, and for the extension of the parcels post arrangements of this United States with other countries.

Hitherto merchandise could be carried in the mails between the United States and Brazil only at letter rates, which under the terms of the international postal union are five cents (United States) for each half-ounce or fraction thereof, or \$1.50 a pound. This made the sending of merchandise from one of these republics to the other, except in exceptional cases, out of the question on account of the cost.

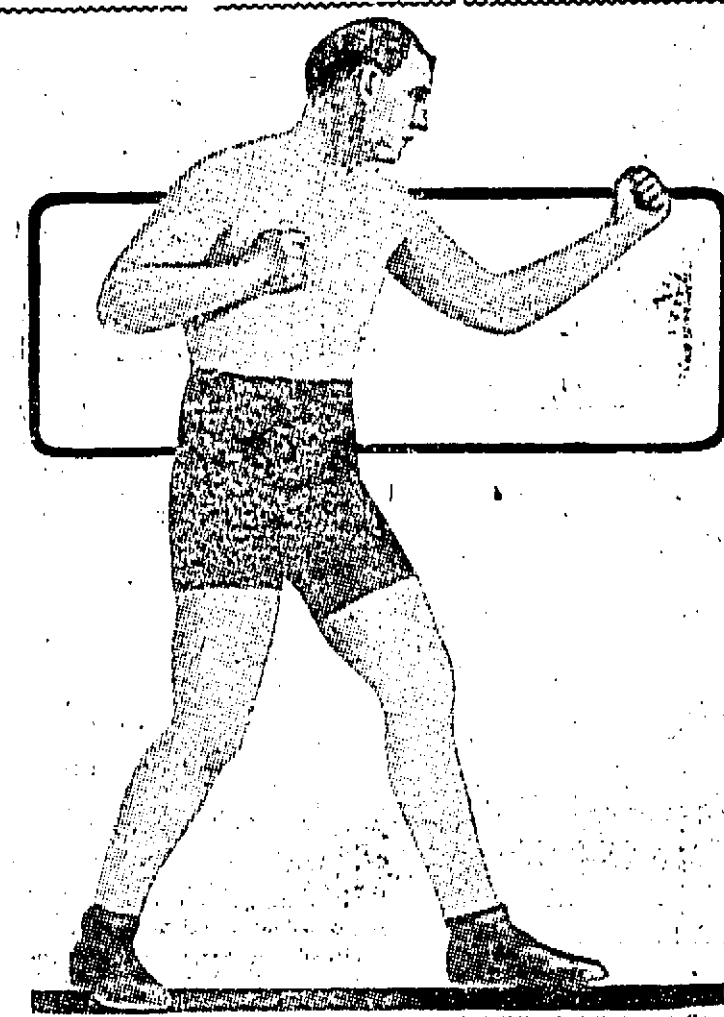

Under the terms of the universal parcels post regulations the postage rate on merchandise is 12 cents a pound, and the weight limit of a parcel is 11 pounds. The United States has parcels post conventions in force now with about 40 countries.

This arrangement is distinct from the international postal union, under which the ordinary foreign mails are carried, the parcels post becoming operative by individual treaties or conventions between the separate powers.

The domestic postal system of Brazil embraces about 3,000 offices. The communications of the country include about 16,000 miles of railroad, largely operated by the federal government. In all the post routes cover between 35,000 and 40,000 miles.

AT THE PLAY HOUSES

No data will be found wanting in "The House of a Thousand Candles" which will be presented at the Myers Theatre Tuesday Jan. 24. All the scenery for its four acts, the old mechanical devices made necessary by

the odd story, and each detail that lends the mysterious atmosphere to the unfolding of the plot will be found fully complete. It is a play of mirthful mystery, an odd compound to say the least. There are the chills and weird moments, but they do not terrify as the audience realizes from the moment that the curtain rises that the mystery is most whimsical. The chief character of the play, Bates, a man with a past, and with a temperament that never rises to a familiar point, will be capably enacted by Geo. Winn, an actor who was especially selected for the role after months of careful search.

Rehberg's 13th Annual Mid-Winter Clearance Sale

A Sale That Reaches the Zenith of Value Giving

If we may be excused for paraphrasing a familiar quotation, here's a case where it's of paramount importance that we "stand not upon the order of selling, but sell at once." Such values as you may now share in at Rehberg's are without peer or precedent in Jansville clothing annals.

Blue Serge Suits that sold for \$10.00, are now selling for \$8

Lots of things you ought to consider about a suit sale; the price you pay isn't of nearly as much importance as what you get for your money. You get a whole lot in this special Blue Serge Suit Offer; every suit involved was made by such master tailors as Hirsch-Wickwire, Michael Stern and others of equal repute. Blue Serge Suits that sold in regular season at as high as \$30 are all offered at the above big discount.

REALLY Painless Dentistry

"Did you ever before have a tooth extracted really without pain?" said I to the pleased patient as she was leaving the office. "NEVER! BEFORE," she said. And that's the common thing with me every day.

I really seem to satisfy people's most optimistic desires in the way of Painless Dentistry.

POLICE OF NEARBY CITIES NOTIFIED

Description of Tools Taken From
Dicknell Co. Has Been Sent Out
—No New Developments
In Case.

Letters giving information concern-
ing the robbery of the machine shop
of the Dicknell Manufacturing and
Supply company have been sent to the
police of nearby cities, the Rockford,
DeKalb, Freeport, Madison, Evansville,
and Fort Atkinson authorities being
notified and requested to be on the
watch for the thief, presumably a
travelling machinist, who might try to
sell them. Some of the tools are
marked "J. M." The list of missing
articles, given in the letter is: One
combination square; 2 four-inch
square; 2 six-inch square; 1 calliper
rule; 2 six-inch outside and in-
side callipers; 1 five-inch thread calli-
per; 1 brass plumb bob; 1 die stock
with 3-16, 1-4, 5-16, two 1-2 and 3-8 inch
dies and one 1-2 inch left hand die;
1 tap wrench, 3 hammers, 1 set steel
figures, a number of cold chisels, 1
cast iron block plane, 1 six-inch trim
wrench, 1 screw driver, 1 hand vice,
5 palm files, 1 bevel square, 1 broad
drill, 1 bit brace, 1 pocket level, and
2 thread gauges.

The police are still working on the
case but as yet there are no new de-
velopments.

DR. BEATON'S ADDRESS TO BE INTERESTING

Burns Birthday Entertainment Under
the Auspices of the Caledonian
Society.

The Rock County Caledonian Society
of Janesville, Wisconsin, give their
patronage January 25, 1911, to a liter-
ary and musical entertainment of the
poetical work of Robert Burns by Dr.
David Beaton, who is recognized by
American Scotsmen as the most able
exponent of the lyrical genius of the
poet.

The lecture on "The Genius and
poetry of Robert Burns," has been de-
livered by Dr. Beaton in Chicago,
throughout the northwest, and the Pu-
cillo coast. It is not a talk about
Burns, but merely a literary analysis
of his thought, for Burns was the great
thinker of his time, and a reading of
his poems in a way understood and
appreciated by those who cannot read
the "Braid Scots" for themselves.

Dr. Beaton's lecture will be illus-
trated by pictures of Scottish scenes
of the Burns country, and by the
songs of Burns rendered by the Musi-
cal Director of the Caledonian Society,
Mrs. Zoe Pearl Park.

As these scenes will be specially
selected and rendered for the purpose
of illustrating the tenderness, pathos
and humor of the Scottish muse and
the sweetness and kindness of Scot-
tish music, friends and welcome the
world over, who love folk songs and
native art, and is such a program as
the Sons of Scotia, belonging to the
Caledonian Society of Janesville, have
long wished to give under their aus-
pices on a Burns Birthday.

DECIDED DROP IN PRICE OF BUTTER

Elgin Quotation For Present Week
Places Price of Creamery Product
At Twenty-Five Cents

With the reduction of two cents a
pound for creamery butter which has
been made each of the last two weeks
by the Elgin butter board, Janesville
housewives will be able to purchase
the product at a price below thirty
cents per pound. The present reduc-
tion to twenty-five cents a pound, El-
gin price, is one of the welcome in-
dications of lowering cost of living. It
is a five cent reduction from the price
a month ago and ten cents from that
of a year ago.

Fresh eggs have also taken a slump
as to price and those also may now
be purchased at a mark below thirty
cents per dozen. They have been low-
ered from three to four cents from
last week's price and will doubtless
undergo further changes downward.

AFTERNOON TRAINS WERE DELAYED BY DERAILMENT

Freight Cars Went Off Track and Two
Trains on Northwestern Road
Were Held Back.

Two trains on the Northwestern
railroad, the train from Fond du Lac
arriving at 12:45, and the afternoon
train from Watertown, due about three
o'clock, were delayed today by a de-
railing near Fort Atkinson. Several
freight cars went off the track and
the Fond du Lac train was held at
Fort Atkinson until the o'clock this
afternoon, about three hours late.

The locomotive of a freight train on
the Rock County Northwestern division
trucks of the St. Paul road running in-
to the city and a light engine in which
Engineer Cornelius Harrison and Fire-
man Seltz were riding came together
Sunday morning at the switch near
the coal chutes. The light engine
started to pass out ahead of the
freight and was hit by the latter.
Both engines were smashed quite badly,
the light engine, 912, being the
greater damaged. Fireman Seltz on
the 912 was slightly injured.

SOCIAL UNION WILL MEET THIS EVENING

Municipal Taxation is the Subject For
This Evening's Discussion.

All the various phases of the ques-
tion of "Municipal Taxation" will be
treated by the members of the Social
Union club in their regular monthly
meeting at the Y. M. C. A. auditorium
this evening. Dr. J. W. Laughlin,
leader, has secured some of the tax
experts of the city to speak on differ-
ent problems which the subject pre-
sents and it is said that some inter-
esting speeches are forthcoming. As
the topic is one of general interest a
large attendance is expected. The
supper at 6:30 will be served as usual
following which the program will be
given.

HAS FAST HORSE WHICH SHOWS HEELS TO THE STERLING NAGS

Dave Young, Formerly A Resident Of
Janesville Drives Fastest Horse
In Illinois City.

According to the Sterling papers,
Dave Young, who was formerly a resi-
dent of Janesville, owns and drives
a fast bit of horse flesh in Sterling
where he now makes his home. The
following clipping from a Sterling
paper tells the story.

"Strambo, the Champion of the
Speedway, that is the appellation that
has been tacked to the name of Dave
Young's black spender. The major-
ity of the horsemen are of the opin-
ion that Strambo is about the fastest
half mile traveler in this section of
the state. Champion of the Speedway
not only includes Sterling, but all of
the surrounding towns. It is expect-
ed that after the weather becomes
settled, that Strambo and his owner
will be given an opportunity or two
to get a better check on the title."

M. W. of A. In Excellent Condition

The following letter received by J.
W. Van Beunum, gives interesting
facts regarding the financial condition
of the Modern Woodmen of America:

Rock Island, Ill.
Jan. 20, 1911.

Mr. J. W. Van Beunum,
Clark Camp 356, M. W. of A.,
Janesville, Wis.

Esteemed Neighbor:

I beg to advise you that claim on
death of late Neighbor John Madden
has been allowed by the Board of Di-
rectors and order for \$2,000 will be
duly forwarded for delivery to his wife
as his beneficiary.

I am pleased to report that every
death claim is paid to date that can
be, and that there is now in the Gen-
eral fund of the Society over Five Mil-
lion dollars, and with the last Per
Capita tax credited up, there will be
more than one million in the General
fund, a splendid financial condition
with which to begin 1911.

When we take into consideration
that more than 102,000 members ap-
plied for admission into the Society in
the year 1910 and that 295,000 joined
the Society in the two preceding
years, it certainly makes a great re-
cord for the triumph term, and one
over which I believe every Woodman
can rejoice. When we further consid-
er that during the years 1908-9-10
eight assessments have been skipped,
and that the present month is skipped,
it certainly shows great results in our
century history, for had we had an
assessment each month there would
have been added to the Five million
now on hand, something like Eight
Million dollars more. Believe me to be,
With kindest personal regards,
Yours fraternally,
A. N. BOIT,
Director, M. W. of A.

The following death claims have
been paid in Janesville during the past
12 months:

A. J. Dayton, \$2,000; G. J. Allen,
\$2,000; J. H. Housh, \$2,000; J. B. Smith,
\$2,000; J. Madden, \$2,000.

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON.

I WONDER if there is anything more characteristic of the hosts of the age than the average handwriting.

Have you ever noticed how few people nowadays ALWAYS form ALL of their letters? How rare is the person who doesn't OCCASIONALLY omit a loop of the "m" or chop off the last letter in a word?

To any nothing of the folks who are guilty of these and similar carelessness continually.

Of course there are some people who habitually write clear business-like hands, but a sort of suggestive impressionism, a sort of sketchy leaviness-to-guess-the-rest seems to me to be the prevalent note of the present day chirography.

Just as with an indistinct talker one must help out the ears a good deal with the eyes, so with these indistinct writers one must assist the eye with the brain.

That is, one cannot read wholly by the characters, but must be helped out by what one expects to find.

I am especially impressed with this because of the many letters I get through this column from unknown friends.

I can almost always get the context of these letters by using a little common sense when the writing is uncertain, but when it comes to the signature, I am very frequently at sea, for there I must depend wholly upon the characters.

And whether "m" or "n" or "u" is meant by this loop, or whether that is an "o" at the end of the name or merely a quick or perhaps an "s," I find myself often unable to decide.

In which connection I want to ask the pardon of any people to whom I have sent letters spelling their names or addresses wrongly. Truly, it wasn't carelessness. It was just that my one best guess was wrong.

Now I know many people who are aware of the illegibility of their penmanship and consider it a good joke or even something to be almost proud of, as a sign of genius.

I think that's a decidedly a mistaken attitude. Imperfect penmanship is one of my tendencies and I'm very much ashamed of it.

I think the habit of talking so quickly as to speak indistinctly and of writing so rapidly as to write illegibly are a part of the bad tendencies of the time towards undue haste in thinking and living.

We can't all write prettily.

We can't all write even strongly.

But we can all form every one of our letters—dot our "i's," cross our "t's" on the "t" itself and not all over the neighboring "p's" and "g's," etc.—and in general recommend ourselves by being accurate and not slipshod in our penmanship, can't we?

"Thou art the apple of mine eye."

Some Ways of Serving Apples.

The properties of fruits of all kinds are so essential to our diet that they should be more often included in the menu. Apples are now a fruit that may be obtained all the year round.

The malle acid which is contained in the pome fruit is especially valuable to counteract the uric acid in the blood, which is the cause of rheumatism.

When served whole, apples should be carefully washed and rubbed with a high polish with a coarse towel. The Italian street vendors find that apples so treated look better and so sell better.

An apple should never be eaten without washing it, as germs of all kinds may thus be carried into the system.

Wash, quarter and core good eating apples, removing all imperfections. Serve a few quarters on each plate, with or without sugar. Fruit with little flavor may be sprinkled with a grating of nutmeg or a sprinkling of lemon juice. Many who will not take time or trouble to prepare an apple in the morning will enjoy a few pieces all ready prepared. Wash and core apples without peeling them, put into an earthen baking dish with a little water, sugar and bits of butter, bake slowly until tender. Leaving the skin on the apple makes a baked apple of much better flavor. As a dessert, apples may be served in any number of ways.

Apples a la Ninon.—Sprinkle baked apples with freshly grated coconut on taking from the oven. Serve on a mound of boiled rice with the milk of the coconut for a sauce.

Apples Baked With Dates.—Wash and core apples for baking. All the centers with stoned dates, sprinkle with powdered sugar and bake, basting with butter and water with a little lemon juice.

Another way of serving baked apples is to prepare them as above, and, instead of the dates, use a banana drawn into the center of the apple; trim off the ends and baste with butter, water and lemon juice.

DON'T MISS A KINDNESS.

Life is too short to miss a kindness, too long to cherish a hate. Kindness makes the world move along in rhythm and it causes everything in the world to sing with gladness. Hate spoils the rhythm and kills the gladness. It spoils all life and he who cherishes it is blind and ignorant.

The world has been deluged with blood has been wiped away by kindness. The man who cherishes hate in his heart loses the beauty of life. He misses all the charm of living and he certainly never hears the music that forms the background of the great drama.

The man who cherishes hate earns for himself a crabbed and desolate old age. He earns for himself a blighted middle age and all sorts of everything worth while from his life.

The man who considers life too short for anything but kindness longens his stay here and makes it a joyous cavalcade as he moves outward towards the consummation of his hopes. In his retinue he finds all sorts of good spirits—the spirits that uplift and make life beautiful, and not a single one wears a destructive weapon of any sort. In place of words and dangers they wear bows and instead of outbursts only songs of joy and words of peace and comfort fall from their lips.

The man who rides in such a cavalcade reads the life about him with the eyes of a seer and extracts as much joy from it as the bee that extracts honey from the flower it visits. Such a man finds friends wherever he turns because his attitude makes them. The cynic and the pessimist turn towards him because the light of his countenance warms even them. The gentility of his presence thaws the coldest of

infantile tropes, and makes them realize that there is a brighter and better side of life.

But better than all are the friends and friendships such a man gathers about him. Every day of his life has a new joy and as age creeps upon him he finds himself growing younger in spirit because in his own way he has found the fountain of perpetual youth.

That is the sort of life each of us should seek. It is a life of service, for the more one gives of himself to the world the stronger he becomes imbued with the spirit of kindness. It is his compensation, it is his draught from the elixir of life.

Kindness begets service. When the fires of kindness glow in a man's heart it makes him quick to serve and quick to see where service is needed. And the service he renders is efficient because actuated by a realization of the necessity of others and the need to give all that it is possible to give.

And that is what we are told we are placed here for—to serve, to help others who cannot help themselves, to help lift up the fallen, to bind up the wounds of the injured and to present life in its best aspect to those yet enquiring the way or who may have gone astray. In fact, to be a light to the feet of others, and the man who permits kindness to take possession of his heart is just that—a light.

HOW TO CLEAN THE METALS

Use Salt and Broken Egg Shells on Enamelled Pans and Soda on Galvanized Baths.

Enamelled pans should be steeped, the soot removed and then washed with hot water, any burned parts being removed by rubbing them with a coarse flannel dipped in salt and broken egg shells. Then rinse well and dry both inside and out.

Galvanized baths and the like should be rinsed out with hot water and soda directly after they are used. To clean them thoroughly scrub well with soap and water, to which soda has been added; dry and then rub with a piece of house flannel dipped first in paraffin and then in silver sand or powdered bath brick until bright. Rinse first in hot and then in cold water and allow to dry in a draft in order to remove the smell of the paraffin.

Tin can be cleaned with whiting mixed to a stiff paste with water or ammonia, but all the powder must be brushed off when dry. Another method is to slice down thinly four ounces of yellow soap and pour over one quart of cold water. Allow this to stand for a day in order to dissolve. Then add a pound of the best whiting, bring it all to a boiling point, keeping it well stirred, so as to insure all being properly mixed; then leave it until cold, when two ounces of spirits of hartshorn are added. Keep this mixture in tightly corked bottles.

Wash zinc thoroughly with warm water. After rubbing it dry rub again with a cloth dipped in either paraffin or turpentine.

English Buns.

One cake of yeast, three-fourths cup lukewarm milk, one quart sifted flour, four eggs, one-half cup butter, five tablespoons sugar, one-half teaspoon salt, three tablespoons chopped almonds. Mix flour and salt into bowl, make well in center, break eggs in whole, then add the butter and the milk in which the yeast has been dissolved. Mix thoroughly with a mixing spoon and set aside to rise in a warm place, free from draft, for one and one-half hours. When light turn out on floured kneading board, sprinkle with sugar and chopped almonds and work them into the mass thoroughly by drawing the tips of the fingers lightly and quickly through the dough. Do not knead, then drop by table spoons, half an inch apart, into greased baking pans, let rise for ten minutes and bake for 20 minutes in a hot oven. The whole process takes about two hours and ten minutes. This recipe will make two dozen buns.

WHEN TO EAT WATER MELON.

Watermelon contains little nourishment, but if ripe it is not indigestible unless eaten with a variety of incompatible foods. It is compatible with all acid fruits and other melons, and is particularly appropriate with such for breakfast in hot weather without meat, eggs or milk, with which it should not be eaten. The practice of eating a large slice of watermelon at the end of a meal consisting of heavy foods is not a good one. Doctor Tanner broke his remarkable fast upon watermelon. It is as unnatural to mix light and heavy foods as to wear winter and summer clothing together.

Kitchen and Pantry.

In making cakes, whatever eggs are to be used should be added after all the ingredients are well mixed. By observing this rule two eggs will be found to go as far in enriching the cake and making it light as three would if added at an earlier stage of the preparation.

A teaspoon of salt in the water to the outside vessel of a double boiler will raise the temperature of the contents of the inner vessel. A cereal may be made to boil in this way without danger of burning.

Lemon dipped in salt will clean copper kettles and other metal articles successfully. Afterward they must be well rinsed in clean water and be polished with a soft cloth.

DISABLED.

In a certain camp a battalion was being instructed on "how to take a convey through open country." One company was told off to represent a convey, the men being instructed that they were to represent horses, cows and wagons.

After being halted a short time the advance signal was given and the convey moved on, but the major noticed that one man continued to lie down, and, galloping up to him in a rage, said: "Man, why don't you advance?"

The soldier replied: "I can't, sir."

Major—You can't? What do you mean?

"I'm a wagon," said the soldier, "and I've got a wheel off."—Tit-Bits.

A LUXURIANT GROWTH OF HAIR.

Does Not Follow Neglect of the Scalp.

Aside from combing it when they think necessary many people give no attention whatever to their hair. Then when the hair begins to fall out it never occurs to them that their trouble is the result of personal carelessness.

An occasional application of Newbro's Hairdye will not only prevent loss of hair but permits a luxuriant growth.

Hairdye kills the germ that causes dandruff and to this germ most hair losses are attributable. It keeps the scalp clean and free from dirt, allowing the hair to grow unimpeded by accumulation of dandruff.

Newbro's Hairdye is sold by all druggists and its manufacturers have such confidence in its germ destroying power that they authorize all druggists to guarantee the one dollar size bottles to do as claimed or money refunded.

Applications may be obtained at good barber shops.

CASSIAN ANDREWS BELOVED BY ALL

Former Evansville Resident Who Has Passed Away, Enjoyed High Esteem of All Who Knew Him.

(SPECIAL TO THE GAZETTE.)
Janesville, Jan. 23.—This community was shocked on Saturday morning to learn of the sudden death of one who though living at a distance, was well known and most highly respected here, and whose passing from this life has brought sorrow to the hearts of many who were associated with him during the early years of his life.

Cassian Andrews, the second son of John C. and Sarah Wright Andrews, was born on the home farm near Arroyo, Wisconsin, April 7, 1854. In the spring of 1888 he came to Janesville with the family who had been attracted here by the Evansville seminary. Here he spent his school days and in 1879 started west with his father and younger brother to locate on some of the land thrown open for settlement. Far ahead of the railroads and settlers' villages they went into Kingsbury and Hamilton counties where he met the state of South Dakota. His father was one of the first white men to turn a furrow in Kingsbury county. Here the deceased spent the major portion of his active life.

In 1890 he married Miss Sarah Inman, formerly of Tomah, Wis., who lived upon an adjoining farm. Seven children were born of this union, six of whom survive the father. For many years he managed extensive farming interests, having between three and four sections under his charge for his father, brothers and sisters.

He was over a staunch republican doing his utmost locally to maintain the principles in which he believed and devoted much strength to check the flood of Populism that swept over the state.

He was a life-long communicant of the Episcopal church. He led a quiet, uneventful life, typical of his time and location. To sustain the widowed mother and to provide for those dependent upon him to give a helping hand to a neighbor constituted his life work. The district school was located on his farm not far from the house. It was a thoroughly established custom of this district that when a blizzard came Cassian Andrews dismissed the school and took teacher and pupils home with him until the storm had spent itself. By such unobtrusive kindness during a sojourn of thirty-one years he drew to him a wide circle of friends.

In the spring of 1909 an offer coming to him to sell his half section for fifty-five dollars an acre that he had watched grow from a dollar and a quarter, he sold and bought a three hundred and fifty acre farm on Clement Bay, one of the arms of the Potomac. He was guided in his choice by various inducements of climate, water and markets, but the chief consideration was to be located near his older brother, Byron, living at Washington, D. C. The two, though living widely apart, had always managed to spend much time together, and dream to be more closely associated was at last realized.

Last August the two came to this city to pay their mother and sisters a visit. After three weeks Cassian returned home leaving his brother to prolong his stay. Upon October 15, he was recalled by the sudden death of his brother. From the shock sustained at this time he never recovered. A severe cold confined him to his house for a few days when a boil formed on his hand from which blood poison developed.

He passed away last Friday afternoon at his home in Clement surrounded by all the members of his family except Miss Alice, the oldest daughter, who was here visiting her grandmother. His loved ones have the deepest sympathy of their many friends.

PLAN ORGANIZATION OF HEALTH LEAGUE

Director Stephens of Y. M. C. A. is Handling Local Work of Proposed National Wide Health League.

Physical Director Stephens of the Y. M. C. A. is carrying on the local campaign which has recently been started by the International Committee of the Y. M. C. A. for the organization of health leagues which will be national in its scope.

The movement is the outgrowth of several successful efforts which have previously been taken up by Dr. Irving Fisher of Yale University and others interested, and the idea was conceived of conducting a campaign for a health league through the medium of the Y. M. C. A. and more especially through the physical director.

There are now six hundred physical directors in the United States and they are all taking hold of the matter with an energy which means success. The plan is to secure as many of the citizens of the town as members of the league and through them an educational campaign will be carried on for the purpose of instructing the public in the danger and means of prevention of disease.

It is planned to secure ten thousand members at least of this organization throughout the country. Director Stephens has begun an active canvass for members in this city and has already secured quite a number. He hopes eventually to interest all the men of the city in this important work so that the health and hygiene conditions of Janesville may be benefited thereby.

Courses of study are prepared by the league including the following subjects: Personal Hygiene; Recreation and Playgrounds; Swimming and Life Saving; Shoe Hygiene; Health Information and Child Hygiene.
